

COVID - 19

Due to COVID -19, we have had to change the way that properties are viewed, we will no longer be able to visit properties in the same vehicle as the clients, so it is very important that when you come to Spain, you have your own transport, and also some form of navigation system to get to each property you want to view.

Appointments: Viewings will be by appointment only.

We will show the properties you have previously requested, as long as you abide by these strict guidelines to protect our staff, their families, and also yourselves.

Wearing of face masks, it is compulsory in Spain, please bring your own face mask and wear it the whole time you are visiting the properties with our staff, if you do not have a face mask, please purchase a face mask from any pharmacy in Spain, prior to your appointment.

Our staff will have alcohol-based sanitizing gel with them, please apply the gel to clean your hands, before entering and after leaving each property, especially when the property is not a bank repossession and there are people living in the property.

Try and keep your distance, at times its impossible, but please try your best when speaking with our staff, or when viewing properties, to try and keep a minimum of 1 meter away, with your face mask covering your mouth and nose at all times.

Visits to our office in Gandia, currently we are suggesting that all viewings are pre arranged online, or by phone call or email, as many of you will be travelling to Spain by airplane and with no quarantine measures to abide by when you arrive, we are trying to protect our staff who work constantly in the office, who have no contact whatsoever with foreigners.

Together, following the above guidelines, we will all remain safe, and beat this virus in the future.

We look forward to meeting you in the future.
